

SPREADERS

RS600

Durable construction perfect for homeowners applying fertilizer, pesticide, herbicide and grass seed.

- Spreads 25,000 sq. ft. of material
- Heavy-duty agitator prevents clumping of material
- Commercial “T-handle” frame designed for comfort
- Factory-calibrated spread pattern can be controlled with side deflector

Weight (lbs)	23
Hopper Height (in.)	10.5
Handle Length (in.)	32
Hopper Capacity (lbs).....	60
Frame.	Powder Coated Steel

For RS600 only.

RS60

Larger capacity spreader with increased capacity for properties larger than 1 acre.

- Factory-calibrated spread pattern assures even, accurate coverage
- Rotary agitator stirs materials to maintain consistent flow
- Pro-style “T handle” places controls at fingertips
- Welded steel, epoxy-coated frame resists corrosion

Weight (lbs)	22.5
Hopper Height (in.)	27
Handle Length (in.)	31
Hopper Capacity (lbs).....	70
Frame.	Powder Coated Steel

RS76S

Stainless steel frame built for the harshest uses and a long life.

- Heavy-duty, fully welded, stainless steel frame resists corrosion
- Factory-calibrated spread pattern assures even, accurate coverage
- Rotary agitator stirs materials to maintain consistent flow
- Includes hopper cover

Weight (lbs)	26.8
Hopper Height (in.)	27
Handle Length (in.)	36
Hopper Capacity (lbs).....	70
Frame.	Stainless Steel

RS76

Large capacity rugged spreader for heavy-duty use.

- Heavy-duty, fully welded, powder-coated steel frame resists corrosion
- Factory-calibrated spread pattern assures even, accurate coverage
- Rotary agitator stirs materials to maintain consistent flow
- Includes hopper cover

Weight (lbs)	26.8
Hopper Height (in.)	27
Handle Length (in.)	36
Hopper Capacity (lbs).....	70
Frame.	Powder Coated Steel

SPREADER ACCESSORIES

Hopper Cover

Fits models: RS60, RS76, RS76S

Part # P14606-1

Fits models: RS600

Part # 91218

Side Deflector Plate

Fits models: RS76, RS76S

Part # 81214

Ice Melt Deflector

Fits models: RS76, RS76S

Part # 569041

Fits model: RS60

Part # 569040
